

CARE & MAINTENANCE FOR WRITING SURFACES

WRITING SURFACES Porcelain Steel White Boards e³

Daily Care and Cleaning

Wipe surface with a clean cloth moistened with a non-ammonia-based glass cleaner then rinse with clean water. Wipe dry with a clean, dry cloth.

A more thorough cleaning may be required if the writing is left on the surface for more than two to three days.

Special Cleaning

To remove crayon, transparent tape residue and other miscellaneous stains dampen a clean cloth with water and sprinkle a small amount of powder cleanser on the cloth. Begin cleaning a small area with a back and forth horizontal motion using normal pressure as if cleaning a window. Wipe off the residues with a dry cloth then rinse with clear water. Wipe dry with a clean, dry cloth. Repeat if necessary. Nelson Adams NACO recommends The Bar Keepers Friend as the cleanser of choice. Use less cleanser for Chalkboards.

Permanent Marker Cleaning

Moisten a clean, dry cloth with isopropyl alcohol. Begin cleaning in a circular motion to loosen marker residue. Dry with a clean, dry cloth. (If isopropyl alcohol is not available try writing over the permanent ink marker with a dry erase marker then wipe with a clean, dry cloth.) Repeat as often as necessary to remove all residues.

Use less alcohol for Chalkboards.

Any inquiries or comments contact our corporate office.
